Introducing Toshiba's Value Plus™ Extended Warranty Plan

Making your decision to choose Toshiba business communication systems just got easier. We've added a powerful new program, the Value Plus Extended Warranty Plan, to provide you—our valued customer—with the industry's first extended warranty plan offering up to seven years of investment protection and peace of mind.

With products known for their best in class migration, quality, and reliability, the Telecommunication Systems Division of Toshiba America Information Systems, Inc. has a proven track record of providing many of the industry's best products and solutions. Now with Value Plus, you can protect your Toshiba Communication Systems investment. The Value Plus Plan also makes budgeting and long-term planning simple and easy by locking in fixed costs for hardware component replacement and extended coverage.

What's Covered

With Value Plus, you'll have the added benefit of a manufacturer's direct extended hardware warranty in addition to Toshiba's standard 2-year warranty. You can increase your coverage, choosing the Plan that's best suited for your business.

Value Plus offers two choices, extending your coverage to:

- 7 years (84 months)
- 5 years + 1 month (61 months)

The Value Plus Plan covers Toshiba's Strata CTX family of business communication systems, certain Strategy voice processing systems, and the DKT3000 series family of telephones, which assures full coverage of all your system's hardware components that are registered under the Plan.
